LTC Can Protect Your Client's Retirement Assets

When the need for long-term care services arises, having an insurance policy in place to help cover the cost of care may help ensure your client's retirement assets can remain intact. This added measure of protection may also provide:

Control

Helps your client avoid the need to liquidate assets to pay for long-term care services, leaving their retirement assets intact for their intended purpose.

Flexibility

Helps allow your client to maintain the retirement lifestyle they planned while also receiving policy benefits to help pay for the care they need.

A Legacy

Help ensure sufficient assets remain in their estate to serve as an inheritance.
