

DON'T
G A M B L E
ON SINGLE-PAYER
 Voting **NO** on Amendment 69
 is the only safe bet.

Welcome to the
ColoradoCare Casino.
 But know that the **RULES**
ARE DIFFERENT HERE.

**Playing Roulette
 with Health
 Benefits**

ColoradoCare would **wipe out** people's existing, well-defined health benefits – and replace them with a **vague promise to cover unnamed services and products.**

**No Limit
 TAXes
 Hold 'em**

ColoradoCare would **raise taxes by \$25 billion.** Payroll taxes would jump 3.33% for employees and 6.67% for employers. All Coloradans would pay a new 10% tax on non-payroll income, including certain retirement income, capital gains, and state tax refunds. ColoradoCare **officials would be able to impose unlimited tax increases.**

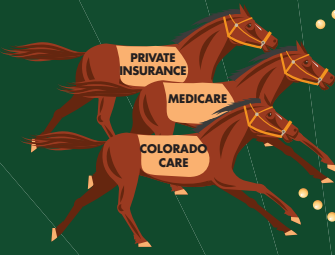

**The House
 Always Wins**

ColoradoCare's 21 trustees would not answer to the governor or legislators and couldn't be recalled. These **21 unaccountable bureaucrats would make healthcare decisions that affect millions of Coloradans.**

**Multi-Payer
 Horse Race**

ColoradoCare would exist alongside Medicare and supplemental private insurance plans. So ColoradoCare would just **add another layer of healthcare bureaucracy.**

**Rush to
 the Exits**

ColoradoCare's lower reimbursement rates would **drive top specialists out of Colorado.** By creating the highest taxes in the country, ColoradoCare would **force businesses to leave, too.**
